## HANDOUT 17: Disaster Plan Outline

This is a planning guide for your presentation. Write down the data that is necessary for your plan. Create visuals, diagrams and information to present to your class. You may use this as your guide but you must present on poster paper, overhead or PowerPoint. You also may wish to create a video presentation. Your disasters could be anything from war, terrorist attack, earthquake, fires, tsunami, resource depletion or hurricane.

Name your disaster: \_\_\_\_\_

What area(s) were affected? \_\_\_\_\_

How would you gather information about the destruction caused by your disaster?

---

---

---

What type of destruction did your disaster cause?

---

---

---

Identify the services required to help with the damage caused by the disaster and to help the people affected by the disaster.

---

---

---

Identify the levels of government that provide the services you have listed above.

---

---

---

Identify the aspects of administration – human resources, communication, and coordination – needed for the relief plan.

---

---

---

Now put this all together in a presentation format that is both interesting and engaging to your classmates.
