HANDOUT 18: How the Government Helps in a Disaster

Answer the following question in full and complete sentences.

1. Which body in the federal and provincial parliaments would normally make disaster relief plans?

2. Name three disasters that would require a federal government intervention.

3. Give an example of when the federal and provincial governments would have to cooperate with one another.

4. What federal and provincial departments are likely to be important in an emergency situation?

5. What other non-government organizations would play an important role during a disaster?
